Important: All plans include a substantial penalty for early withdrawal. If a certificate is redeemed fully or in part before the term has expired all earned interest is forfeited. The principal is returned minus any earned interest up to the point of early redemption. If the plan is held to full maturity all earned interest is retained by the Subscriber plus all principal is returned to the Subscriber. “Full return for a term”. There is a provision in the agreement that allows for a subscriber to sell out their full position for par value to another subscriber or outside entity and retain all earned interest with no penalty. Three Phase Group may assist with facilitating that request.

Addendum: All Three Phase Group Plans provide income and return of principal security through the assets of H. Haerri, VCPF, Inc., which is 100% invested in the Senior Life Insurance Settlement asset class of only A- or higher rated U.S. Life Insurance Carriers, and passed through Three Phase Group, LLC direct to the Subscriber.

Mom's settlement was funded with an investment of \$420,000 @ 9.8%. I'm adding this information as my own personal credibility of the safety of the investment. Notice the projected return in 10 years on that \$420,000 of \$411,600.

You can match up the payments with the data on page 16/23. The only discrepancy has been weekends or holidays'. December 10th was a Sunday, so the payment hit the bank on 12/12 as shown at the top here.
