YOU are the future of the Mutual World.

The IAMIC Board wants you to know that we are here for you to offer advice, experience, knowledge and a guiding hand when you need it. We have a great program planned to show you how IAMIC can provide resources for you in your daily operations.

We also realize that you have much to offer in the ways of new ideas and a fresh new attitude. We have all learned that growth in business depends on looking through fresh eyes with the knowledge of the past.

We will kick off with a welcome lunch—share ideas and resources in the afternoon and then wrap up with a dinner. This is the day before the underwriting seminar that could help you too, consider signing up and joining us April 14th.
